MRSS Consultation

Guidelines & Roles

Assigned Consultant Role & Objectives:

1. Generate strategies for successful implementation of MRSS model best practices.
2. Assure that organizational and operational standards promote MRSS practice effectiveness.
3. Reinforce the goals and guiding principles of the MRSS model.
4. Provide resources and learning strategies that include the use of evidence-based practices.
5. Address fidelity with a focus on program development and provide support for improvement strategies.

MRSS RMP & Team Supervisor Guidelines:

1. Each region will have up to three hours of scheduled consultation per month.
2. The Regional MRSS Provider (RMP) Clinical Director and MRSS Team Supervisors throughout the region will participate in the scheduled consultations. There should be an identified supervisor representing the RMP if the clinical director is unavailable to participate in a scheduled consultation.
3. Communication will occur between the assigned consultant and Regional MRSS Provider (RMP) Clinical Director to coordinate and schedule consultations.
4. Consultations will be scheduled either in-person or via video conferencing (i.e. Zoom, Teams). If scheduled via videoconferencing, there will be no AI permitted to ensure a safe consultation experience.
5. Participants should be present and actively engaged during each consultation.
6. Due to the unpredictable nature of crisis situations, team supervisors may leave the consultation if needed.
7. The team supervisors will follow-up with their MRSS staff during supervision and/or team meetings regarding the take-aways from consultation.
8. Consultation process evaluations will be distributed every 6 months for completion.

Additional Options

There are other methods of support through the COE:

1. Leadership (agency) consultation and guidance
2. Technical Assistance (TA) and feedback
